Fascinating Operation In Building On Michigan State U. Campus

JUST NORTH OF LANSING'S busy Mt. Hope Avenue on the edge of the MSU campus spreads an attractive two-story building of brick and glass that shelters a varied and fascinating operation little known to most of the state's

nearly eight million citizens. Consumer protection is almost as much a part of the building as the concrete and steel. The structure is actually a collection of separate laboratories, each performing analyses and chemical determinations on different products bought by people of the state. The building is the Michigan

Department of Agriculture's W. C. Geagley laboratory, named in honor of the man who was chief chemist until his retirement last year after 47 1/2 years of service to the state. Analyzed in this building last year were 3,010 food samples; 4,237 samples of dairy products of all kinds; 7,149 lots of seeds to determine their germination and purity; 211 tests of soft drinks and fruit juices. In addition there were 6,070 plant or tree specimens tested, and 1,515 analyses of feeds, fertilizers and liming materials. Some analyses take many hours to complete. Seeds take days and weeks.

It should be emphasized here that the vast majority of food products in the state operate legally; keeping track of such things as seeds, feeds, fertilizers, or spray materials used primarily in farming. Many "interesting" things show up in the laboratory from samples picked up throughout the state by workers in the Michigan Department of Agriculture's foods and standards division. Violations are surprisingly few when one considers the millions of purchases of food in the state in a week. When adulteration, misbranding or illegal ingredients are detected, action from the Department follows promptly.

Chemists have analyzed black pepper mixed generously with the husks of foods or buyers of such things as seeds, feeds, fertilizers, or spray materials used primarily in farming. Important state facility last year. These are chemical, biological or microscopic. One laboratory is devoted entirely to the analyses of alcoholic beverages; the State Liquor Control Commission. Another dealing with a highly specialized branch of chemistry is devoted to analysis of saliva and urine collected at race tracks to determine if horses have been doped. This is done for and at the cost of the Michigan Racing Commission.

Services performed for the liquor and racing agencies of the state and at their expense may be important, but they are relatively minor functions. The main purpose of the laboratory is to protect consumers, whether they be purchasers of foods or buyers of such things as seeds, feeds, fertilizers, or spray materials used primarily in farming. Karl L. Vogelheim, partner in the Vogelheim Lumber Company, and well known businessman announced he will be a candidate for Delegate to the Constitution Convention for the Representative District of the Northern Michigan Division. Mr. Vogelheim is 50 years old and is a life long resident of Rogers City. He graduated from Rogers City High School in 1929 and four years later received a B.S. degree from the University of Notre Dame. He entered the lumber business with his father and has carried on in that field. Karl has been active in local government, civic affairs, and sports. He is in Service Club work. He served as Councilman for eight years, part of which was for the Village and the incorporated City. For some years he served on the board of the Rogers City Chamber of Commerce and also as its president. Kiwanis has had his ardent support and, in addition to being an active member of the local club, he served as president and then Lieutenant - governor for the Division. During the past six years he served on the Presque Isle County Road Commission and during that tenure became president of the Northern Michigan Road Commissioners Association, a group consisting of some thirty counties in the northern half of the lower peninsula of Michigan.

Mr. Louis Stillwagon
Grayling Winter Sports Park
Grayling, Michigan

Dear Mr. Stillwagon:

The Cooley High School Parents' Club wishes to express their appreciation for the beautiful bow and arrow plaque you so generously donated to our school.

It was shown at a regular parents' meeting and the reason for your giving it was explained.

Our young people surely enjoyed themselves in Grayling and it is most gratifying to know they conducted themselves so as to merit such fine recognition.

This attractive plaque will be an inspiration to following classes as it will be permanently displayed in the school.

Thank you for such tangible evidence of your interest.

Sincerely,
Mrs. C. G. Babcock, Secy.

Michigan Marching Forward . . .

This week, the citizens of our county join together with the rest of Michigan's people to celebrate Michigan week. In many communities, they are going all out to put up the attributes of a great state. In others, although there isn't as much hullabaloo, the fact remains at the people are taking a good, long look at themselves.

Among the many things that the people of Michigan should know about their state and be proud of are:

- Michigan has the greatest shoreline of any state 3,121 miles . . . equaling the Atlantic shoreline from Maine to Florida . . . and it's longer than the whole Pacific from California to northwest Washington.
- Michigan has 11,037 lakes for sport pleasure. It's the greatest tourist state in the midwest, attracting 10,000 visitors every year.
- Michigan sells more hunting and fishing licenses than any other state.
- Michigan has 61 state parks . . . more than any other state in the union.
- Michigan borders four of the Great Lakes, contacts by inland waters with New York, Pennsylvania, Indiana, Illinois, Wisconsin, Minnesota and Ontario, Canada. Through the St. Lawrence Seaway, Michigan is a major part of the Nation's fourth seacoast, enjoying water connections with the world's seaports.
- Michigan is first in the nation in value of manufactured products. It builds 85% of all cars and trucks. Pre-eminent too, is Michigan's production of cereals, foods, metal working, machinery, salt, sporting goods, rugs, rubber, paper, furniture . . . and many other products.
- Educationally, Michigan ranks among the nation's top three states. It has sixty-nine universities and colleges. Michigan is a leader in adult education, driver training for high school students, vocational education,

disabled and handicapped personnel education and established school camps.

Michigan's farm production is big . . . so big, in fact, that it easily surpasses the value of agriculture in 35 other states.

Michigan's highway system is recognized as among the finest in the nation, and extensive plans for improvements are greater than those of any other state.

True, our state has its problems . . . all other 49 have too . . . but the Wolverine State's progress and accomplishments far outweigh any of the perplexing propositions facing us as citizens of a truly great state.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

May 25, 1938

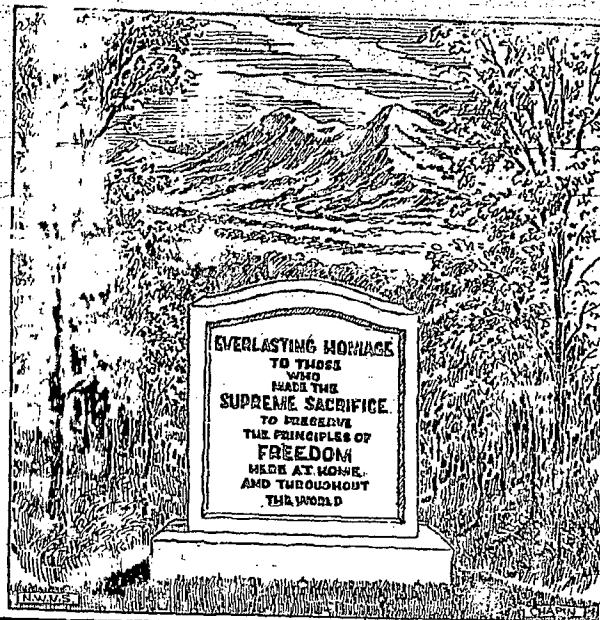

Although weather conditions prevented the first Airmail pickup for Grayling from following the special schedule of arrival, 1:42 p. m., the Post Office Department and Postmaster McDonnell are deeply grateful to Mayor Burke and the citizens of Crawford County for the fine turnout at the airport. Due to rain and heavy fog the plane was grounded at Grayling overnight, but arrived at the Grayling Airport at 9:20 a. m. Friday and received the five pouches of mail from Postmaster McDonnell, which contained 562 pieces of airmail from Grayling and 110 pieces from the Mio Post

Office. The plane arrived at its destination, Saginaw, shortly after 12 noon. Mr. Carl P. Kaiser, pilot of the plane that carried the airmail from Grayling, is to be complimented on his good judgment in holding the flight over until weather conditions permitted. The plane carried four passengers besides the mail from St. Ignace, Petoskey and Gaylord, and had anything happened enroute the people of Grayling would soon lose their enthusiasm for a permanent airmail stopoff. A Diesel powered experimental car is scheduled to be on exhibition here next Sunday afternoon from 4 to 7 p. m. It will be stationed near the Temple theatre and the public is invited to call and see it. On a recent test run made by one of these cars, a distance of 547 miles across desert country was accomplished in 9 hours and 10 minutes — consuming 20 gallons of fuel which costs 8 cents per gallon or a total of \$1.60. In spite of the high desert temperature which at times reached 112 degrees, the water in the radiator never exceeded 189 degrees. On another recent test run covering 6,100 miles \$19.50 worth of fuel and lubricating oil were used.

Miss Ethel Taylor, who has been taking a post graduate course in pharmacy at Ferris Institute, last week was graduated with the degree of Bachelor of Science in Pharmacy. Miss Taylor already had been a practicing pharmacist, but has taken this extra course in order to permit her to practice in other states. She is returning today to Kingston, N. Y., to resume her former position with the L. F. Hammond, Inc., Pharmacy.

Tuesday afternoon of last week a very pretty luncheon was given by Mrs. Esbern Hanson at her home. The long table was very attractive with an arrangement of garden flowers. The afternoon was spent playing contract, the

"LEST WE FORGET"

honor score being held by Mrs. Arnold Smith of Fort Wayne, Ind. Out-of-town guests included Mrs. Walker Monroe of Detroit, Mrs. O. E. Wilkinson of Burbank, Cal., and Mrs. Arnold Smith of Fort Wayne, Ind.

Several friends of Kermit LaMotte celebrated his birthday with a surprise party Saturday evening. Bunch was the main game of the evening, with Marie LaMotte holding high score and Mrs. Lucille Morris low score. Several other games were enjoyed after which a delicious lunch was served to the group.

Grayling Merchants will cross bats with Kalkaska on the home lot next Sunday afternoon, with Anthony and Harrison as battery for the locals. Grayling has played and won two games so far this season.

A group of friends spent the evening Wednesday with the Rev. and Mrs. C. Stockholm, and the affair was a pantry shower for the good Reverend and his wife. Visiting and singing songs made the evening a very pleasant one. A 10 o'clock buffet lunch was enjoyed.

Mr. and Mrs. Herbert Walther spent Sunday in Sterling visiting the latter's mother.

Workmen began work this morning on placing a new cement block basement under the home of Mrs. Henry Boeson.

Richard Lovely, Arnold Burrows and Floyd Jackson attended the K. of C. convention at St. Joseph, Mich., over the weekend. Mrs. Lovely and daughter accompanied them as far as Mt. Pleasant where they remained to visit Mrs. Lovely's sister, Mrs. Ray Gutka.

Mrs. Henry Libcke and son Frederick of Grand Rapids are spending a few days visiting Mrs. Libcke's parents, Mr. and Mrs. S. D. Dunham.

Joan Randolph, daughter of Mr. and Mrs. Byron Randolph, who

has been quite ill with rheumatic fever for the last three weeks, is able to sit up in a chair now.

Mrs. Elmer Rasmussen and little daughter Karen of Marquette are visiting her parents, Mr. and Mrs. Adam Gierke. They will be joined by Mr. Rasmussen for the weekend.

With the school year drawing to a close there has been great activity in the Home Economics Department as the various projects are being completed. Last Wednesday the advanced group had a practical lesson in outdoor cooking when they went out to the park at the reservation and cooked their breakfast.

Mrs. Olga Boeson arrived in Grayling Tuesday from Muncie, Ind., where she has been visiting her brothers Albert and Fritz Groulett, since arriving from Denmark. Mrs. Edna Lemler, a niece, accompanied Mrs. Boeson here to remain most of the summer at Lake Margrethe.

Mrs. Axel Larson is the new bookkeeper at the Grayling Dairy. Miss Muriel DeLaMater has resigned her position at Burke's garage and resumed her former position, which will now be a full time job, at the Burrows market.

Mr. and Mrs. Willard Cornell will be moving into the Mrs. Ernest Blonskette house on Elm Street as soon as the Frank Bonds move into the house they recently purchased from Joseph Kernosky.

Mr. and Mrs. Sanford Charron of Frederic are happy over the arrival of a daughter, Sandra Arlene, born at Mercy Hospital early Tuesday morning. The mother was formerly Loretta Sorenson.

Roy Boger has moved his bar. (Continued on Page 6)

It's Great to live and work in Michigan - Celebrate Michigan Week, May 21-27.

Local Food Uses 7,291,000 lbs. a Year
(Special to the Avalanche)
New York - Residents of Crawford County seem to have healthy appetites. They dispose of an impressive amount of food each year. In 1960, it is estimated, they consumed some 7,291,000 pounds of food. It was at the rate of 28.6 pounds a week per person.

While this was big eating, it appears to be a drop, at first glance from the record of recent years. In 1950, for example, the rate was 28.3 pounds per person.

The reduction is not a real one, however. Local people are not heeding the advice of health experts to the extent of cutting down that much on their food intake. Instead, it is due to the fact that more foods are being bought now in dehydrated form, so that the market basket weighs less.

The figures are from data released by the Department of Agriculture, the Department of Commerce and other agencies on a national basis.

In terms of the Crawford County population, expenditures for food in local retail stores averaged \$5.51 a week in the past fiscal year for each man, woman and child.

This was more than was spent the previous year, \$5.31 per capita.

Total sales of food in the county amounted to some \$27,000 per week. This is exclusive of money spent in local restaurants.

A breakdown by the Department of Agriculture shows just what the average person consumed per week. The largest item was milk products, not including butter, 840 pounds. Next in order were fruits and vegetables, exclusive of potatoes, 7.9 pounds. Following these came meat, fish and poultry, 3.4 pounds, and cereals and baked goods, 2.8 pounds.

The rest went for sugar, fats and oils, eggs, beverages and the many other items used.

The makeup of this market basket is found to vary with income. A rise in income has the effect of boosting purchases of meat and baked goods and cutting down on flour, cereals and potatoes.

It also increases the overall food bill. Families in the \$9,000 income bracket, for instance, spend 18 percent more a week than do those in the \$4,500 range.

Michigan State Oil and Gas Lease
State-owned oil and gas lease rights in 43,852 acres will be offered at public auction beginning June 23, 1961, at 10:00 A. M., E. T., in Room 133, Stevens T. Mason Building, 500 W. Michigan Avenue, Lansing, Michigan, and continuing until all descriptions have been offered.

Included in this sale are 160 acres of Crawford County lands located in Township 25 North, Range 4 West.

Specific descriptions and further particulars upon request. Department of Conservation Lands Division 25-1

First building on the left is a dry goods and clothing store. Next is J. Kramer's merchant-tailor shop. A butcher shop was on the corner where Olson's shoe store is now. A millinery store and express office stood between the butcher shop and Kramer's. Between the corner store and the Court House is the old band stand where Mrs. Emil Niederer's father, Mr. Edward Clark, directed the Grayling band for 37 years. Behind the Court House stands the former County Jail.
